

Activewear Program Items

Winning Edge's Activewear Program incorporates a "One Price System" designed to take the risk out of your resale pricing. The prices listed below are the prices we will charge you. The prices include a one location, one or two color imprint. The program's prices are the same whether you sell 12 t-shirts or 112 t-shirts. The benefit of this system is that you can sell the items at a price higher than the list prices and know what your profit per item will be and know that you will not have the risk of losing money. Choose six of these products and start encouraging spirit.
